(Accreditation Prior Experiential Learning)

PANAMA LONDON BOLOGNA RAGUSA

GET A BACHELOR'S DEGREE FROM SELINUS UNIVERSITY AND ENJOY A MODERN AND CHALLENGING STUDY PROGRAM

Every adult student's needs, background and profile is different. Reason why each application request is individually examined. The first step is to send us an email attaching your detailed Curriculum vitae; you will tell us what you are interested in between Bachelor of Art (B.A) and Bachelor of Science (B.Sc) as well as the chosen Major. In a few days, the Academic Secretariat will process your CV and send you back the Provisional Certificate.

The Provisional Certificate will list: your personal data; the obtained credits from your CV validation process (study, professional experience, skills, certifications, courses); the missing credits you are required to earn in order to access your chosen degree course; the study majors most consistent with your profile and the Faculty chosen and the cost of the entire program. In addition to the Provisional Certificate, you will receive the Application Form, in case you decide to enroll.

Once the Application Form and the requested documents are properly sent by the candidate, they will be processed during 5 working days. After that, Selinus Secretariat will issue the Certificate of Enrollment, the Payment Plan (you previously decided to subscribe). Immediately after, your account will be activated and you will be able to access it through your registration number.

BACHELOR VIA DISTANCE LEARNING

Selinus University Bachelor is a distance learning study program addressed to high profile adult students who are motivated and professionally engaged. We assume that responsibility and motivation allow our students to develop their home study program, with no need of constant tutoring and guidance to their academic work.

Obviously, we understand that personal and professional commitments can be a hindrance to the study time at home. For this reason, students will not be affected if they do not comply with the study program and the assignments performance. Selinus University believes that self-organization is undoubtedly the best option for adult students since it implies freedom of time and stress reduction. Basically, each student is free to manage his/her study time to carry out his/her program.

Selinus University will not contact the students unless they request advice, tutoring or submit any academic work for verification.

The distance learning program is meant to help the students manage their own time as they best believe. However, Selinus University will not involve the student in a detached and impersonal home study experience: our Secretariat will be available at any time for questions, comments or feelings on the study progress.

Selinus University does not provide strict time limits for home study program completion. However, for the purposes of examinations, you have to submit at least one report per year in order to keep your student account open. If the student does not submit any work study during a 12-month period, the student's account will be disabled.

HOW TO GET A BACHELOR DEGREE AT SELINUS UNIVERSITY

Two program attendance systems are available:

1) **the "ordinary" procedure:** going through every course subjects in the program. Uniselinus Distance Learning study programs do not implement traditional examinations per each subject, but reports writing (Units Examination) on the course textbooks previously studied. The reports are validated and transformed into academic credits for graduation purposes. It will be necessary to reach the threshold of 90 credits to access the final thesis.

2) **the A.P.E.L.** (Accreditation Previous Experiential Learning) procedure: evaluating previous studies carried out by the student and his/her professional experience. Language and computer skills are also taken into consideration as well as any certified training. In some exceptional cases, high-profiles students whose A.P.E.L. evaluation exceeds 90 credits will be admitted directly to the thesis.

Selinus University distance learning courses consist in the study of textbooks, web links, indicated handouts and the reports production on textbook readings according to the Selinus guidelines. The A.P.E.L. program is reserved to students being aged 30 at least and having 5 years of professional experience; it is also open to professionals, entrepreneurs, managers and officials.

YOUR BACHELOR VIA DISTANCE LEARNING

Selinus University is dedicated to intercultural education in an international perspective. Several social factors have created a momentum towards globalization. As a competence oriented adult education institution, we respond by building international modern curricula to adjust to today worldwide adult learning community needs.

Distance higher education for adults is a good and effective alternative to a formal university campus. Selinus University offers perfectly legal degrees that are legitimately obtained through distance higher education programs. For younger students, it is certainly more useful to attend a traditional campus; however, adult students, who are often unable to leave work or family, may not need traditional university campus social experiences.

A distance higher education institution as Selinus University can be exactly what they need. A distance university should never be considered as a substitute for formal education; it is rather an alternative that provides a convenient learning experience. Anyway, it also requires a greater degree of self-motivation and self-discipline. Those values are highly appreciated by companies.

Selinus University's distance higher education for adults has adopted an efficient study method that provides useful content, including a substantial bibliographic selection; all programs can be completed at home without traditional exams anxiety. Such adult distance pedagogy has been chosen as a successful example by UNESCO, the European Union and many other countries. For this reason, many distance learning Universities such as Selinus have adopted this system.

Skills acquisition is given the utmost importance. How those skills are achieved is secondary. Companies that hire, multinationals, NGOs, private bodies, do not consider relevant the way in which their potential employees achieved their knowledge. Selinus University verifies and then "certifies" specific professional competences through a Bachelor Degree. As a matter of fact, Selinus makes the whole process smooth and easy.

ACCREDITATION - EDUCATION QUALITY - REPUTATION

The accreditation process is non-governmental and voluntary. A distance education University normally appeals to a private, regional or professional association for accreditation; when any University applies, the accrediting institution performs an overall assessment and grants the accreditation only when deemed appropriate. Note that each accrediting organization has its own accreditation criteria. No worldwide accreditation standards are currently available for any distance learning higher education institutions such as Selinus University.

A distance learning degree is useful for many purposes but not for all. It gives access to many professions and jobs while others require government-accredited diplomas. For this reason, before enrolling, we suggest our potential students to verify the correct degree use in their country. Professional reputation depends on people's skills as well as acquired know-how; that is only virtually represented by the obtained degree. We have to bear in mind that any company relies on problem-solving skills and competences owned by aspiring employees rather than on their degree.

For most companies, the completion of a distance university program is as valid as attending courses on a formal university campus. In fact, completing a distance degree course demonstrates an unquestionable level of will, responsibility, motivation and personal organization. These skills are highly valued in the workplace and explain why HR managers do not value employees earning degrees only.

Selinus University of Science and Literature has the WCI (World Certification Institute) accreditation

Selinus University is globally accredited by the WCI (World Certification Institute), a leading global certifying body that grants credential awards to individuals besides accrediting educational institutions and organizations. The WCI accredits courses and study programs delivered by universities, colleges, schools, professional institutions and training companies.

WCI has accredited Selinus University of Science and Literature after carefully reviewing, validating and authenticating its study programs.

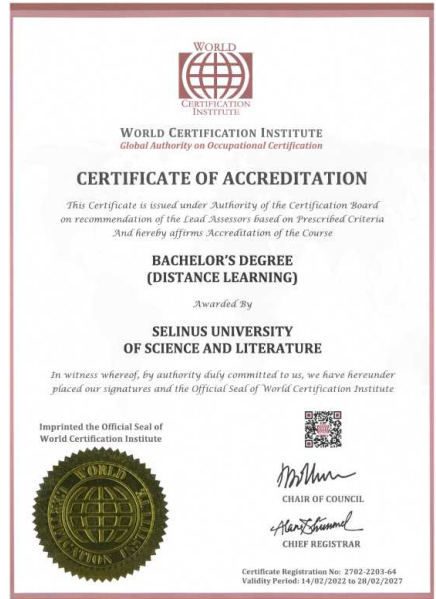

The World Certification Institute examined the following parameters: course content and duration, teacher qualifications and expertise, financial strength and integrity of course providers, available facilities and resources, delivery and assessment method and most importantly the titles relevance to professional and career development, in line with Selinus University's mission.

The WCI Board has recognized that Selinus University's programs of study are up to global educational standards and conferred accreditation. University is not accredited by an accrediting agency recognized by the United States Secretary of Education.

The accreditation process is non-governmental and it is a voluntary, self-regulatory process to ensure the academic quality of educational institutions. There are no worldwide accreditation standards.

Accreditation does not correspond to legality or recognition, but is a non-governmental and voluntary quality standard.

Selinus University's higher distance education is accredited by recognized bodies or members of private international bodies and meets the educational quality standards of these organizations.

Quality management Certification Selinus University ISO 9001 Certified Selinus University ISO 29990:2010 LSMS Certified Business School ISO 21001:2018 EOMS Certified

In February 2022, the Selinus University of Science and Literature was awarded the **ISO 9001 quality management certification**. A certification for which organisations must undergo thorough conformity checks by an accredited certification body and which attests to the quality with which Selinus University implements systems and solutions for its students.

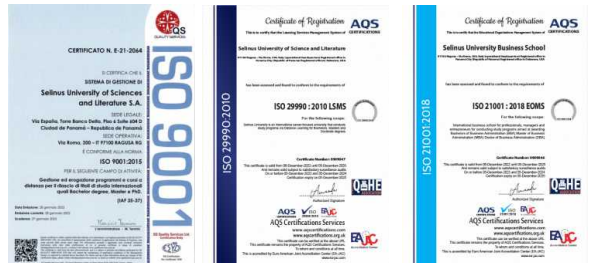

Since December 2022, it is also certified **ISO 29990:2010** as an international university for the conduct of career-focused study programmes via Distance Learning for Bachelors, Masters and Doctorate degrees.

Selinus University Business School is also certified **ISO 21001:2018 EOMS** as an International business school for Professionals, Managers and Entrepreneurs for conducting study programmes aimed at awarding Bachelors of Business Administration (BBA) Masters of Business Administration (MBA) Doctor of Business Administration (DBA) and Global Executive PhD.

ISO standards are defined by the International Organisation for Standardisation (ISO) and outline the requirements for quality management systems within organisations and companies in both the private and public sectors. It consists of a series of standards, which can be applied to various processes within organisations.

Guarantees of Certifications

The ISO 9001, 29990, 21001 certifications obtained by Selinus University place the student and his or her satisfaction at the centre of the activities and processes implemented in all phases of management. Selinus University thus demonstrates that it adopts a quality management system by analysing and understanding the needs and expectations of its students. Furthermore, it guarantees the characteristics of its services by performing continuous monitoring. It prevents non-conformities and adopts improvement processes by carrying out internal audits.

Selinus University has been granted full accreditation by the AAHEA (The American Association for Higher Education)

The American Association for Higher Education (AAHEA) is the oldest non-profit association in the United States dedicated to the advancement of higher education.

The American Association for Higher Education (AAHEA) is an independent professional organisation that promotes change and reform in higher education, fosters quality teaching and learning at the college and university level, and promotes public awareness of the value of higher education in the United States and around the world.

The goals of the AAHEA include identifying and analysing critical problems, trends, and developments in higher education and seeking constructive solutions; helping to coordinate the efforts of educational institutions and agencies at all levels; encouraging the improvement of professional work in all areas of higher education; and developing a better understanding by the general public of higher education and higher education as a profession. In pursuit of these objectives, the AAHE provides a forum for the expression of ideas related to higher education and public policy.

The Selinus University has obtained the ECICEL International Membership

The European Centre for Independent Certification in E-Learning (ECICEL) is an international professional association governed by Council and officials. It was founded in 2010 to improve the quality of the sector, which includes maintaining the standards of the education system and promoting modern administrative practices in pedagogy.

ECICEL essentially provides services to colleges, schools, training organisations and universities worldwide.

With over 15 years of experience in the sector, ECICEL offers a unique insight into the global online education market.

Selinus University has the QAHE accreditation (International Association for Quality Assurance in Higher Education)

The QAHE, registered in Delaware USA, is an independent, private and international organization which is funded through fees charged for its accreditation services to Higher Education Institutions, Certification Bodies, E-Learning Management System Providers and Training Organizations. We use our expertise to support the development of quality assurance systems worldwide. As the accrediting agency has grown in size and complexity, the quality assurance systems have evolved and, progressively, tasks are articulated and delegated, with official certifications.

QAHE is an expert in recognizing higher education institutions for research performances, student services and quality of teaching to value the confidence of the public along with supporting the development of quality assurance systems worldwide. Furthermore, QAHE has been assessed and found to conform to the requirements of ISO 9001:2015(Quality Management System), ISO 29990 (Non-formal Education and Training Services Management System), ISO/IEC 17011:2017 (requirements for the competence, consistent operation and impartiality of accreditation bodies assessing and accrediting conformity assessment bodies), ISO/IEC 17040:2005 (the general requirements for the peer assessment process to be carried out by agreement groups of accreditation bodies or conformity assessment bodies), ISO 20000:2018 (Service Management System) and ISO 27001:2013 (Information Security Management System).

With its huge network and recognition from worldwide organizations, QAHE accreditation status signifies your institution's commitment to quality education which is in compliance of international standards.
